**Notes to Question B)**

**Notes to Question C)**

**Notes to Question G)**

**WESTERN SPRINGS COLLEGE**

## **Western Springs College International Student Homestay Rules**

- 1: It is the student's responsibility to get to school on time, and to be alert enough to learn when to get up and when to get to school.
- 2: When the student has health problems, well-being or safety before or after school time, he or she should let the host parents know at first hand, so that the host parents can take actions to help the student or inform the school or guardian immediately.
- 3: Western Springs College requires that the Students go home straight after school or before dinner time Sunday to Thursday. The latest time to return home on Fridays and Saturdays should be around 10:30pm. The Homestay Student can not sleep over at a place without parental supervision. There must be parental supervision if he or she is staying at a friend's home. When the student is planning to come home late or sleep over with another family, the Student should provide the detailed contact information of the person/family, including the person's name, physical address, landline and cell phone number and when they will return home.
- 4: If the Student is going to invite a friend to their Homestay place, he or she should ask for permission from the host parents. The student should make sure that he or she does not do this frequently as it involves extra cost and responsibility for the host parents. Friends of the opposite sex should not go be allowed in the student's bedroom with the door shut, nor should they visit when the host parents are not home.
- 5: The Student should keep his/her bedroom tidy.
- 6: If the host parents offer to do the washing, the Student should make sure he or she puts the dirty washing in the laundry or wherever the host parents tell you.
- 7: The Student should normally take one shower a day. The shower time should be between 5 to 10 minutes. The student should leave the bathroom in the condition that he or she found it.
- 8: The student should help do some basic chores such as washing and drying the dishes, taking out the garbage, washing his/her own clothes, or setting the table for dinner, etc.
- 9: The host parents are responsible for the students' food and accommodation. It is the student's responsibility to bear the cost for travel, entries to movies, parks, and so on.

**Signature of Homestay Student who agrees to the rules and is to follow the rules:**
